EDCI 339 - Brainstorm Document for Assignment #2

Pod 2: Tegan Clarke, Maegan Barwis, Courtney Wheeler, Noah Taron, Anna Sorokina, Aiden Kindopp

1. Persona: <https://pod2project.opened.ca/persona/>

Tegan's Idea:

Isla is a 40-year-old WSÁNEĆ Indigenous woman. She speaks English and some SENĆOŦEN. She graduated high school in the year 2000 at 18 years old. Currently, she has no post-secondary education or trades training. Isla works Monday-Friday 9 am -5:30 pm at a major chain grocery store. She's a single mother of 2 teenage children (18 female + 13 male) and they are living off her single-income household, thus they are categorized as a low-socioeconomic status (SES) household. While not the most tech-savvy, Isla knows her way around and is good at troubleshooting problems. Their internet access is stable and she owns an older model laptop computer. Isla wants to pursue post-secondary education but isn't sure of her options. She was looking into the Indigenous language revitalization program at UVIC but she was also considering various open/distributed learning resources. She needs something that will fit around her scheduling needs (i.e., work, children, etc). Isla was born and raised in the Victoria/Saanich area and doesn't want to relocate to attend classes. Main areas of interest pertaining to indigenous history/culture, as her parents were not able to pass down much language/knowledge due to being raised during the residential school era. She's also interested in teaching, childcare, art, film, and singing.

Tegan's Example:

Name: Isla Johnson

Gender: Female

Age: 40

Lives in: Saanich, British Columbia

Interests: Indigenous language/culture, teaching, childcare, art, film, and singing.

Education and Experience: High school graduate, no post-secondary/trades training.
